

BE A PART OF *History...*

The City of Kansas City, Missouri and Carollo/Jacobs, the Owner's Advisor, invite you to an informational meeting to learn about **Design-Build** and **Subcontractor** opportunities on the construction of a state-of-the-art **Biosolids Process at KC Water's Blue River Wastewater Treatment Plant**.

Monday, **June 17, 2019**
3:00 to 4:30 pm
Blue River Wastewater Treatment Plant
7300 Hawthorne Road, Kansas City, MO 64120

Please share with your networks!

Please plan to come and view the Conceptual Design and learn about the many opportunities to *be a part of history* with this exciting, transformational project. The multi-million investment will change the way Kansas City processes its 90 dry tons-per-day of raw biosolids. It will be the first Thermal Hydraulic Process (THP) plant in the Midwest.

We are seeking Design-Build teams with the following skills:

Asphalt
Boiler and MAU Installation
Brickwork/CMU Walls
Building Information Model (BIM)
Concrete
Construction Management
Demolition
Design-Build
Ductwork

Electrical
HVAC Design
Installing Process Equipment
Instrumentation/SCADA
Landscaping
Painting
Plumbing

Process Piping
Pumps
Roofing
Smoke Stack Demolition
Solids Processing Commissioning
Steel and Aluminum Fabrication
Structural Steel Repairs
Systems Integration Controls
Utilities

To RSVP or for more information, contact Blake Anderson at Blake.W.Anderson@kcmo.org or 816-513-0329.
